

SIERRA CABLES PLC

Quality Policy

We at Sierra Cables PLC produce range of Conductors and Cables including Armoured and Unarmoured electric cables, conductors, aerial bundled conductors, telecommunication cables for interior use, auto cables, fire resistance cables, low smoke halogen free cables, radio frequency cables, solar cables for photovoltaic systems and drop wire for local and international markets and will take the necessary strategic steps to strengthen its position as a resilient and a profitable company by exploring the export market while enhancing its position in the local market. This would be achieved through prudent foreign investments, strict compliance to the requirements of ISO 9001:2015 standard, statutory requirements, regulatory requirements and the quality management system implemented at the company.

Sierra Cables PLC management will continue to train and develop the staff to guide them successfully in this endeavour. Participation of all employees of Sierra Cables PLC in quality related activities is encouraged. **Total Customer Satisfaction** of internal/external customers is the key when performing all functions at Sierra Cables PLC.
